

## Trends in Green Sports

April 28, 2016

# Citi Field

- Home of the New York Mets
- Built with 95 % recycled steel
- Energy efficient field lighting
- Waterless urinals
- Porous pavement

living Greener

# Levi's Stadium

- Home of San Francisco 49ers
- LEED Gold
- Solar array
- 100% reclaimed wood
- 27,000 ft<sup>2</sup> green roof
- Convenient to public transportation
- Hosted Super Bowl 50

living Greener

# Lincoln Financial Field

- Home of the Philadelphia Eagles
- 11,000 solar panels
- 14 wind turbines
- LEED certified
- Recycle cooking oil as biodiesel and use in equipment
- Chemical-free maintenance of building exterior

living Greener

# American Airlines Arena

- Home of the Miami Heat
- High solar reflective index on roof to lower cooling needs
- Underground parking reduces the heat-island effect
- Water efficient landscaping. Drip and soak irrigation underground at roots

living Greener

# Air Canada Centre

- Home of the Toronto Maple Leafs
- Deep lake water cooling to eliminate A/C
- Use steam from one large boiler instead of more, smaller ones
- Donate unused food

living Greener

# NASCAR

- Recycle used tires & oil
- Planted 400,000 trees (offset 40 years of racing)
- Composting pilot program (5.4 tons of food compost and donate 1,000 meals)
- Uses a biofuel (Sonoco Green E15)
- Solar at Daytona, Indy, Michigan, Pocono and Sonoma

# Your Facilities

No-cost assessment of one of your sports venues
